| The applicant N. Paul Tutino, Sr. 8800 Las Vegas Blvd., South                                                                                                                                                     |
| of Las Vegas , County of Clark ,                                                                                                                                                                                  |
| State of Nevada , hereby make application for permission to appropriate the public                                                                                                                                |
| waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorpora-                                                                                           |
| tion; if a copartnership or association, give names of members.)                                                                                                                                                  |
|                                                                                                                                                                                                                   |
| 1. The source of the proposed appropriation is Underground (well)                                                                                                                                                 |
| Name of stream, lake or other source.                                                                                                                                                                             |
| 2. The amount of water amilial for in 102                                                                                                                                                                         |
| 2. The amount of water applied for is One second-foot equals 448.83 gals. per min.                                                                                                                                |
| (a) If stored in reservoir give number of acre-feet acre-feet                                                                                                                                                     |
| 3. The water to be used for commercial and domestic Irrigation, power, mining, manufacturing, domestic, or other use.                                                                                             |
| 4. If use is for:                                                                                                                                                                                                 |
| (a) Irrigation (state number of acres to be irrigated) not applicable                                                                                                                                             |
| (b) Stockwater (state number and kinds of animals to be watered) see No. 2                                                                                                                                        |
| (c) Other use (describe fully under "No. 11. Remarks")                                                                                                                                                            |
| (d) Power:                                                                                                                                                                                                        |
| (1) Horsepower developed                                                                                                                                                                                          |
| (2) Point of return of water to stream                                                                                                                                                                            |
| 5. The water is to be diverted from its source at the following point: Map shows the point of                                                                                                                     |
| diversion to be within the SW\s\SW\s\ Section 16, T.22S.,R.61E.,M.D.B.&M.,                                                                                                                                        |
| Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,                                                                           |
| or at a point from which the SW corner of said Sec. 16 bears S. 20* 37 it should be stated 30 W. a distance of 752.1 feet. Please correct the application to conform with the map. 278, and 279 which are located |
| Describe by legal subdivision, if on unsurveyed land it should be so stated.                                                                                                                                      |
| in the SW4SW4 of Section 16, T.22S., R.61E., M.D.B.&M.                                                                                                                                                            |
| ······································                                                                                                                                                                            |
|                                                                                                                                                                                                                   |
|                                                                                                                                                                                                                   |
| 7. Use will begin about January 1 and end about December 31, of each year.  Month                                                                                                                                 |
| 8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans                                                                                                        |
| and specifications of your diversion or storage works.) Well, submersible pump, two                                                                                                                               |
| water storage tanks and accessory pipes. Through pipes to all  State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.           |
